

**Breastfeeding London Clinic
In-Person Consultation Standard Operating Procedures (SOP)**

This Standard Operating Policy (SOP) applies to in-person consultations by Breastfeeding London during the COVID19 pandemic.

1. Clients will be contacted before their appointment and be required to answer COVID19 screening questions.
2. Clients are requested to wear a face covering for the duration of the consultation, unless medically exempt.
3. Breastfeeding London consultants will wear single use Personal Protective Equipment (PPE) that will be changed between each client consultation and which meets current UK government guidance. This includes; single use fluid resistant surgical face masks (Type IIR), disposable aprons and disposable gloves.
4. In the Breastfeeding London clinic setting; all high-frequency touch areas will be cleaned with 70%+ alcohol before clinic begins and following the departure of each client.
5. In the Breastfeeding London clinic setting; clients will be instructed to use the 70%+ alcohol hand sanitiser provided by Breastfeeding London on arrival and departure.
6. All PPE used by Breastfeeding London consultants will be disposed of as per current UK government guidance.
